## Programming

## Education

- 2011 - 2016 **Bachelor's Degree in Psychobiology** [School](#)  
As a psychobiologist you search for the biological background of psychological processes. With this knowledge you try to find an explanation for human behaviour, and search for treatments for psychological disorders like autism, schizophrenia or Alzheimers disease.  
In my last year of psychobiology, I followed the programming minor at the UvA. Here I was schooled in multiple programming languages such as C, MySQL, PHP, HTML, CSS, PYTHON, Javascript.
- 2009 - 2011 **VWO Coornhert Lyceum** [School](#)  
Finished VWO, high school
- 2004 - 2009 **HAVO Coornhert Lyceum** [School](#)  
Finished HAVO, high school

## Other Info

About myself:

*My hobbies include kickboxing, MMA and programming. I've been busy with software like Blender and Unity in my spare time. And I quite enjoy writing programming tutorials. If you'd like to know more about me, visit my personal site! Here you can see various tutorials, projects and visualisations that I've made: [https://popoiopo.github.io/my\\_website/](https://popoiopo.github.io/my_website/)*
